

the execution of said instructions in said basic block whereby overall processing of all said programs is increased.

REMARKS

Prior to examination of this application, further additional claims are being added to more fully protect applicants' invention.

It is respectfully submitted that these claims, like the other claims pending in this application, are patentable and should be passed to issue in due course.

Respectfully Submitted,

Gary A. Walpert
Reg. No. 26,098
Attorney for Applicants

Hale and Dorr
